

# TEUTONS FIGHT WITH BACK TO PARIS

German Line of March Threatened by Allies and Great Losses Occur on Bloody Battle Line of One Hundred and Twenty Miles Between Verdun and Nanteuil, With No Attempt to Storm Paris Forts.

## DECISIVE BATTLE RAGES AT VERDUN GERMANS REPULSED BY BELGIANS

Teutons Plan to Repeat Coup of 1870—Russians Storming Prussian City Fifty Miles West of Lemberg—Second Austrian Army Defeated—2,000,000 German Troops Cross Rhine Early in War And Fresh Troops Continue to Pour Westward.

London, Sept. 7.—The belief is growing that a great decisive battle is being fought at Verdun, the strong fortress of France on the Meuse near the French frontier. If the Fourth German army, marching southward, cuts off the retreat of the French eastern armies, which recently have been holding the Germans in check between Toul, a fortified town 14 miles west of Nancy, and Epinal, also strongly fortified and near the Alsace frontier, it might repeat the coup which in 1870 drove General Charles Dennis Sauter Bourdaki and his army of 150,000 men into Switzerland.

Hopeful critics are speculating on the possibility that the Germans swing around to the south may mean an effort on the part of the invaders to make sure of their retreat through the Meuse district, but more likely it is a scheme to strike such a paralyzing blow to the French army as to render the investment of Paris a safe operation.

The southerly movement of the Germans may effect a junction of the Crown Prince's army and the army of Bavaria, which has been held on the defensive in Lorraine. Thus the Germans would advance from the east and north in a vast enveloping movement, destined to crush the allies' right wing by sheer weight of numbers, just as their left was pushed back during the last fortnight.

These preliminary movements, if showing nothing else, at least prove that the Germans realize that the siege of Paris, even its occupation, is quite worthless from a strategic standpoint while the allies are free in the field.

Paris, Sept. 7.—A general action is today proceeding to the east of Paris from Nanteuil and Le Haudouin to Verdun, according to an official communication given out this afternoon.

The text of the official notice is as follows: "A general action has started on the line through Nanteuil, Haudouin, Neaux, Sezanne and Vitry Le Francois and extending to Verdun. Thanks to the vigorous action of our troops, strongly supported by the British, the Germans started retreating. The Germans had advanced Saturday and Sunday into the region between Coulommiers and La Ferte-Gaucher.

In the Austro-Russian theater of operations 12 divisions of the Austrian army in the vicinity of Lemberg, Galicia, has been completely destroyed.

Nanteuil-Le-Haubouin is 25 miles northeast of the city of Paris and 10 miles southeast of Senlis, the distance from Nanteuil to Verdun is, roughly, 120 miles.

Before the official announcement was made newspaper dispatches from both Berlin and London indicated that engagements of tremendous import were being fought in the districts described by the French war office. The Berlin correspondent, whose dispatch was dated last Friday, said that a great battle was being waged on the French center from Reims to Verdun. A message from London early today expressed the common belief in England that a decisive battle being fought at Verdun.

IN THE FIGHTING WHICH IS GOING ON TODAY TO THE EAST AND NORTHEAST OF PARIS THE GERMAN FORCES HAVE THEIR BACKS TO THE CAPITAL. FRENCH TROOPS ARE MASSING THEIR MARCH. FROM TIME TO TIME THE GERMANS TURN AND ENGAGE THE FRENCH AT THEIR BACKS. GERMAN SHELLS FALL CONTINUALLY IN THE GERMAN REAR.

Observers consider that it is obvious that the Germans could not attack Paris while the French armies are intact and are continuing their wide turning movement under perilous circumstances. The Red Cross surgeons and ambulance corps in Paris had received instructions that when they heard firing

to go in the direction of the sound. Following the trail afforded by the smoke the physicians encountered a French patrol who said between 250 and 300 wounded Germans were in a ruined church close to the German line and attended by a single German surgeon and two nurses.

## ENORMOUS WAR PREPARATIONS

London, Sept. 7.—A dispatch to the Evening Star from Rotterdam says that during the first 19 days of the war more than 2600 trains, bearing 2,000,000 troops for the western theater of war, passed over the five bridges over the Rhine at Cologne. Notwithstanding this enormous army reinforcements are still being hurried to the front not only to take the place of the huge number killed and wounded but in order to carry out the eminently German plan that, so far as possible, fresh troops be hurled at men who already have borne the burden of the day. In addition to the tremendous siege guns of the Germans, ordinary field pieces have been hurried forward,

## ALLIES FORCE RETIREMENT

Paris, Sept. 7.—Judging from reports made public in Paris German troops, covering the flanks of the main Germany army, encountered advance detachments of the allies in the fighting east of the capital today at a point near La Serte-Gaucher and were obliged to retire.

## PRUSSIANS ASK TO BE TAKEN

Rome, via Paris, Sept. 7.—A Russian official report, received here, says that their troops are gradually surrounding Trzemsyl, a strong fortified town in Galicia, 51 miles west of Lemberg, and that it will soon either be completely surrounded or taken by storm. Unofficial news which has reached here states that the Austrians still continue their flight southeast of Lemberg and everywhere the pursuing Russians collect arms and stores abandoned by the enemy while whole detachments willingly ask to be made prisoners, saying that the rigor of their officers, together with the privations, make their life impossible.

## BELGIANS REPULSE THE GERMANS

London, September 7.—A dispatch to the Exchange Telegraph Company from Antwerp, dated Sunday, gives a Belgian official communication which says: "The repulse of the German attack against the southern part of Antwerp, at Chapelle Au Bois yesterday was successful, the Germans leaving thousands of bodies on the field and retiring in disorder to Vilvorde, 6 miles northeast of Brussels. They are demoralized by the complete check of the attempt against Antwerp and by the losses inflicted by our field artillery. The Belgian losses are not numerous.

## AUSTRIANS SUFFER ANOTHER REVERSE

Paris, September 7.—According to advices received here a second Austrian army, operating in front of Krasnosodow, in the Luben region, has suffered great losses and is now on the defensive. Some of the Austrians have been forced to retreat.

## SAY GERMANS VIOLATE LAW

Paris, Sept. 7.—An Ostend dispatch to the Havas Agency says: "A new violation of the Laws of War has been committed by the Germans. The military governor of Brussels has forced the civil guards, although disarmed, to help on the work of the fortifications of the city, especially trench digging.

## MINIMIZE THE LEMBREG LOSS

The Hague, via London, Sept. 7.—The Austrian legation last night issued the following statement: "Reports from Russian sources that Lemberg, Galicia, has been taken by the Russians after a desperate fight for possession of the city are untrue. In reality Lemberg, which was not fortified, was abandoned to the Russian troops, without fighting, for tactical and humane reasons.

## EXPLORER MAROONED

By Associated Press.  
Winnipeg, Manitoba, Sept. 7.—Vilhjalmur Stefansson, the Canadian explorer, is marooned on the ice off Herschel Island, according to Rev. W. H. Fry, a missionary, who has been among the Esquimaux and who arrived here today from Kittigavik. Stefansson is in no immediate danger.

## BULLETINS

By Associated Press.  
San Francisco, Sept. 7.—The British freighter, Cetriana, which arrived here early today reported that she had been halted in Mexican water by the German cruiser, Leipzig, her wireless outfit removed and her German cook transferred aboard the Leipzig. Her captain would not say when or where and was reticent about particulars.

Washington, Sept. 7.—A Berlin wireless to the German Embassy says "British cruiser, Warrior, stranded, probably as a result of fight with

cruiser, Goeben, while escaping from the Bosphorus." The dispatch contains nothing to amplify or explain.

Paris, Sept. 7.—After the news of the fall of Lemberg became known in Vienna, the correspondent of the Havas Agency says more than 20,000 men were set at work with feverish haste on the fortifications of Vienna and many thousands of others were strengthening the banks of the Danube.

## RED CROSS SHIP SAILS TOMORROW

New York, Sept. 7.—In her new garb of white and red, and flying the American and Red Cross flags the Hamburg-American liner, Hamburg, renamed the Red Cross, was today made ready to start on her voyage for Falmouth.

The steamship presents a very gay aspect with its coat of white paint, red band and words "Red Cross" in large scarlet letters on either side. Two white flags with red crosses float aloft. An electric sign of a Red Cross will be flashed at night. All of this is for safety and not decoration.

## DEATH CHEATED OUT OF LARGE HARVEST

By Associated Press.

Grimsby, England, Sept. 7.—Nearly 300 persons rescued from the Wilson liner, Runo, by trawlers, when the steamship sank in the North Sea, a victim of a contact with a mine at 4 o'clock Saturday afternoon, were landed at Grimsby and Hull on Sunday. The prompt work of the four trawlers, Silancion, Strethon, Cameo and Prince Victor, saved the lives of nearly all those on board. Wilson line officials say that all the crew and all but 27 of the passengers are safe in this port.

The Silancion picked up 128 survivors, practically all she could hold. The Cameo saved nearly a hundred and the other two, seventy.

The Runo was bound from Hull on the long trip across the North Sea to Archangel, and her passengers were mostly Russians from America who were returning to Russia with their women and children. The boat struck the mine in mid-afternoon Saturday, during fine weather. The explosion was terrific and a large portion of the ship was shattered while several passengers were injured and one was killed.

When the Prince Victor came up her crew went overboard in boats and some swimming. The chief engineer dived overboard and saved a woman and a child. One of the rescued women gave birth to a child a few minutes after being saved.

## Poetry For Today

**THE ENHANTRESS.**  
Beware the moon! Her soft and sil-  
very splendor  
Is deep enchantment of a wondrous  
power,  
Which makes the hardened anchorite  
grow tender  
And causes sudden sentiment to  
flower;  
She makes the plainest, fair; the  
fairest, fairer,  
She makes the heart beat fast, the  
senses swoon,  
And wise men hold her rays in dead-  
ly terror.  
Beware the moon!

Beware the moon! She stirs the  
tongue to utter  
Words indiscreet and better left  
unsaid;  
She makes the breast to heave, the  
heart to flutter,  
She puts the wildest fancies in the  
head,  
She plays the deuce with Tom and  
Dick and Harry,  
And, oh, the tender nothings that  
they croon!  
She tempts the crusty bachelor to  
marry,  
Beware the moon!

"Beware the moon!" So say the  
cynics scheming;  
And yet—perhaps the moon is wis-  
er still,  
Perhaps the golden dreams she sets  
us dreaming  
Shall fill our souls with joy's ec-  
stastic thrill,  
She drenches all the world in silvern  
glamour,  
Youth calls to youth, and warm  
hearts beat in tune.  
Come out, my love, though all the  
cynics clamor:  
"Beware the moon!"  
Berton Braley in Ainslee's.

## JAP PLANES DROP BOMBS

Tokyo, Sept. 7.—Official dispatches received here from the commander of the Japanese fleet off Tsingtao, the German base in the far east, say that two Japanese hydro-aeroplanes were launched from one of the warships and reconnoitered the German position. The aeroplanes dropped several bombs, one of them falling on the German wireless plant. The guns of the forts were directed against the aeroplanes and one of the machines had fifteen holes in its planes, the result of bits of shells and rifle fire, when it returned to the warship.

The Japanese fleet is dropping occasional shells into the fortifications guarding the entrance to Kiauchau bay, but will not begin any considerable bombardment until the land troops are ready to join in the attack.

## STAR OF FAMOUS TRIAL IS INSANE

New York, Sept. 7.—Roland B. Molineaux, whose trial for the murder of Mrs. Katherine J. Adams and subsequent acquittal in 1902 formed one of the most famous cases the New York courts have had to deal with, was pronounced insane by two Brooklyn physicians. Molineaux was arrested at Babylon, L. I.

## KARLSRUHE ATTACKS ENGLISH WARSHIP

New York, Sept. 7.—The German cruiser Karlsruhe has engaged and badly disabled the British cruiser Bristol off the coast of Haiti, according to H. H. Weissnes, lieutenant of the German army and leader of seventy-eight Germans who arrived here on the Clyde line steamship Algonquin from Puerto Colombia on their way to join the colors. The German lieutenant also said that a Dutch skipper had brought word to Puerto Colombia that the Karlsruhe had met and sunk the British cruiser Glasgow off the Colombian coast.

## RUSSIANS POUND AUSTRIAN LINES

St. Petersburg, Sept. 7.—An official statement says: "On Friday the Russian troops continued their energetic offensive against the whole Austrian line. The enemy's center suffered most, in the district west of Krasnozaw and southwest of Lublin. The Forty-fifth regiment of infantry was surrounded and surrendered to a man with the leader, forty-four officers and 1,600 soldiers. A German division which was marching to help the Austrians was attacked on the left bank of the Vistula."

## Germany Has Been Peacemaker and England Trouble Maker of Europe

By Representative RICHARD BARTHOLDT of Missouri

THE impartial historian will bear out the assertion that GERMANY HAS BEEN THE PEACEMAKER AND ENGLAND THE TROUBLE MAKER OF EUROPE. For forty-three years Germany has kept the peace, while nearly every other country, including the United States, has waged war, even within the last twenty years—England with the Boers, the United States with Spain, Russia with Japan and Italy with Turkey. Many a time during the last seventeen years of the old emperor's regime and during the twenty-six years of the present kaiser the German people clamored for war, and especially was this true three years ago during the Moroccan crisis.

NO MATTER HOW THE GIGANTIC TROUBLE SHALL TERMINATE, THIS WAR WILL GO DOWN INTO HISTORY AS THE GREATEST PREDATORY EXPEDITION THE WORLD HAS EVER WITNESSED, AND ENGLAND AND FRANCE WILL NEVER BE ABLE TO WIPE FROM THEIR ESCUTCHEON THE STIGMA OF PARTICIPATION IN IT.

## CHILD KILLS SELF WITH FATHER'S REVOLVER

Little Harold Snyder, Son of Mt. Sterling Undertaker, Plays With Pistol and Ball is Sent Crashing Through His Brain, Causing Death Almost Instantly.

Harold, 11-year-old son of Undertaker and Mrs. Ed Snyder, of Mt. Sterling, accidentally shot and killed himself at 10:30 o'clock Monday morning, while playing with a .32 caliber revolver belonging to his father.

The boy had been left alone at the house for a short time, and when the father's attention was attracted by a revolver shot, he rushed to his home and there found the child in an unconscious condition, and within a few minutes death took place.

When the father reached the house the lad was lying upon the floor while the smoking weapon was a few

feet distant. Some of the cartridges had been removed from the gun and placed upon the dresser. It was evident that the little fellow had been removing the loads, and had then peered into the barrel as he pulled the trigger.

The ball entered just below the left eye and passing through the brain, lodged in the back part of the child's head.

The tragedy caused the mother and father to suffer a complete breakdown, and they have the deep sympathy of hundreds of friends, including many in this city.

Besides the heart-broken father and mother, a 13-year-old sister is left by the lad. Harold was a bright little fellow, and had won the hearts of all who knew him.

Funeral services will probably be held Wednesday. Several local citizens will attend.

tion as a result of the mortar crumbling.

The contract calls for remortaring all crevices between the stones, the chiseling off of the weathered and damaged stones over the archways, and the application of a waterproof dressing wherever the stones have shown indications of decay.

The work has long been needed to place the court house in proper condition and insure the stone work from crumbling.

During the last few years the archways over the main entrances have crumbled badly, until they have become very unsightly.

## LEGGERS FINED PART SUSPENDED

Joe Tapsico, accused of bootlegging Monday morning entered a plea of guilty to the charge and was fined \$200 and the costs, and \$125 of the amount was suspended upon his payment of the remainder. He promised to "be good" and will be kept under the eye of the police hereafter.

George Scott, another of the men who was arrested upon a bootlegging charge, was fined \$200 and the costs, and \$150 suspended pending good behavior. The man's son paid the remainder.

Tobias Peoples was also permitted to go hence with payment of \$75 and the costs, the remainder of a \$200 fine being suspended pending good behavior. He paid part of the \$75 and obtained guarantors for the remainder at \$5 per week.

A repetition of the offense will not find any leniency on the part of the Mayor, according to His Honor.

## MACHINE DAMAGED ON DEVALON ROAD

A touring car, while going at good speed on the Devalon road, Sunday, plunged into the ditch and through the fence, badly damaging the machine, but not seriously injuring the occupants of the machine.

The auto, in passing through the fence, struck a post and snapped the post off at the top of the ground.

After making temporary repairs the machine continued on its way into this city.

## CLARK HACK LINE CHANGES OWNERS

George Melvin Buys Business From Walter Clark and Latter Will Open Hotel in an Adjoining City—Business Established 40 Years Ago and Originally Operated Between This City and Greenfield.

Walter Clark, who for many years has run a cab line in this city, has disposed of the line to George Melvin, who assumed charge of the business Monday, and will continue to operate the business, adding additional equipment within a short time.

Mr. Clark announces that within a short time he will move elsewhere and open a hotel on the European plan. His destination has not yet been announced, as he has two or three propositions under consideration.

For 40 years the Clark hack line has been one of the city's well known institutions, being founded 40 years ago by Mr. Clark's father, Mr. James N. Clark, who operated a hack line between this city and Greenfield before the construction of the D. T. & L. railroad.

He later operated the line between the various depots and the local hotels, being assisted several years before his death, by his son, who for nine years has conducted the business himself.

The line, which is composed of six hacks, one bus and two baggage wagons, with several horses, has for a long time been known as the Cherry Hotel hack and bus line.

The business has been liberally patronized by the public, and the obliging proprietor has always been "on the job" and has found the business a profitable one.

## UNKNOWN VANDAL SHOOT AND KILLS FARMER'S COW

John Swaney, Jefferson Township Farmer, Loses Cow When Some Unknown Person Deliberately Shoots It Down Under Cover of Darkness—Cowardly Attempt to Burn Home Vividly Recalled.

The Shady Grove neighborhood, in the extreme northwestern portion of Jefferson township, is again considerably aroused over the work of some unknown party who, sometime Saturday night, deliberately shot and killed a good cow belonging to John Swaney, of near that place.

The shot was fired from the road-way and the ball is said to have been from a revolver of heavy caliber. A neighbor heard the shot fired, made an investigation, and when the quivering body of the cow was found, immediately notified Mr. Swaney of the cowardly work of the unknown man.

An investigation is on foot, and it is believed that an arrest will follow in the near future, and that a genuine sensation may be unearthed in

the Shady Grove community.

It will be recalled that on Christmas eve, last, while Mr. Swaney and family were absent, an attempt was made to burn their home, but Mr. Swaney returned in time to save the dwelling after considerable damage had taken place.

When he extinguished the blaze he found a kerosene can which had been hurled into the room and used to kindle the fire.

The subsequent arrest of Lee Huffman, a young man of near Blessings Crossing, occurred, and last May the young man was indicted upon a charge of arson. His trial comes up at the approaching term of court. It was brought out at the time of Huffman's arrest that the young man and Swaney had had some trouble.

As Mr. Swaney is a poor man and can ill afford the loss of the cow, neighbors plan to assist him in tracking down the fellow. The local authorities, including Sheriff Nelson, will probably take a hand in the matter.

## CALL MEETING TO ORGANIZE

Mass Meeting of All Interested in Prohibition to be held at Court House Saturday Afternoon for Perfecting Organization to Fight for Dry Measures This Fall.

The Fayette County Ministerial Association held a meeting Monday morning at which nearly all of the ministers of the county were in attendance; also Walter Patton, secretary of Y. M. C. A., Dr. W. D. Cherington, Dist. Supt. M. E. church, and P. C. Gilbert of Columbus, representing the Anti-Saloon league.

The matter of the state prohibition amendment was taken up and discussed, with special reference to county organization for the purpose of conducting a pre-election campaign in behalf of the amendment.

A temporary committee was appointed and arrangements made to call a meeting of interested people of the county to form a permanent organization of the county.

This meeting will be called for Saturday, September 12 at the court house, 1:30 p. m. All persons of the county who are in sympathy with the prohibition amendment are requested to attend.

## DEATH CLAIMS MRS. H. V. CONN

After several years of invalidism and suffering, Mrs. Hannah Vance

Conn, widow of Jacob Conn, passed quietly into the great beyond Saturday night at 11 o'clock, at her home on E. Paint street.

Mrs. Conn had reached the advanced age of eighty-one years and was one of Washington's oldest residents, held in the highest esteem by a large circle of friends.

Several years ago she sustained a broken hip in a fall and has since been bedfast, proving her strong Christian character by the wonderful patience and cheerfulness with which she bore great suffering.

She leaves six children, Lydia, Arthur, of Uniontown, Pa.; Amy, Hamor of Cleveland; Clara and Charles, of Buffalo, N. Y., who have reciprocated their mother's affection by the most devoted care during her long illness.

Only last week, all the children were with her and all but Charles, who was called back to Buffalo remained until the eternal summons came.

The funeral services will be held at the residence Tuesday afternoon at 2:30.

## SCHOOL OPENS GOOD ATTENDANCE

The usual bustle and activity upon the part of parents, pupils and teachers, marking the opening day of school, was everywhere in evidence, Monday morning, as the great army of pupils was prepared for, and hurried off to school.

The morning was taken up in making assignments and preparing the "machinery" so that it would run smoothly after the first day. School adjourned at the noon hour.

## REPORT FILED WITH THE COMMISSIONERS

The executors of the estate of the late B. H. Millikan, filed final report of Memorial hall finances, with the county commissioners Monday morning, enclosing a check for the sum of \$901.79, the amount held by the late Col. B. H. Millikan as treasurer of the Memorial Hall fund.

## FORESIGHT vs. HINDSIGHT

There's a story in the little old story books for children about the brother squirrels which is always impressive.

It runs that one of the squirrels played all through the summer and fall and neglected to store up his winter supplies or gather the snug, warm lining for his nest.

The other played betimes, but also worked, and when the chill wintry blasts came and in their wake the hail and sleet and snow, he was prepared.

The playful, happy-go-lucky squirrel became a tramp and beggar, and during the long hard winter, while he suffered the pangs of cold and of hunger, he looked back on the days when he had played while he should have worked.

The squirrel with fore-sight snuggled into his warm nest with his store of sweet nuts, gathered because of thought of bad weather that was to come, and was happy and care-free. The other suffered and he learned his lesson.

Miss Winifred Williams, who has been visiting Miss Carrie Craig, returned Saturday evening to her home in Athens.

### IMMENSE CROWD ATTEND SURPRISE PARTY

One of the biggest events of the kind successfully carried out in this vicinity was the surprise party given Mrs. James Bridwell in honor of her birthday, at the Bridwell home on the Waterloo pike, Saturday evening.

Between one and two hundred relatives and friends from all over the county assembled in honor of the occasion and all brought picnic hampers fairly bursting with good things to eat.

Mrs. Bridwell had been detained in town until a late hour and she ar-

## LOCAL YOUTH IN SERIOUS TROUBLE IN FORT WAYNE

The police are in receipt of a letter from Chief of Police Chas. Lentz, of Fort Wayne, Ind., enclosing a photograph of one "Chas. Jones", who is held under \$1,000 bond in that city on a charge of highway robbery.

The Ft. Wayne authorities make inquiry as to who the young man is and what he is. The local police had no difficulty in identifying the photograph as that of Roy Church, a young man who has been in trouble a number of times in this city.

According to the letter, young Church is being held under the name of Charles Jones, on \$1,000 bond, and must face the grand jury of Ft. Wayne on a charge of highway robbery for snatching a purse September 2nd. The young man was in company with a couple of other young

men at the time and it is claimed that one of the parties is probably from this city.

Church, who, if convicted, will probably serve a penitentiary term, has done time in the Boys Industrial school at Lancaster, recently completing a term in the Xenia workhouse for bootlegging, and a few months ago served a jail sentence for assisting Orville Stookey in the theft of a robe.

The young man's parents reside in this city, and the lad had long been a wayward one, but has invariably managed to keep out of trouble.

The police believe that the purse-snatching, which occurred in this city during the present year, might have been the work of the young man who is now in trouble in Indiana for similar work.

Germans Reported In Pursuit of the Fleeing Enemy Between Paris and Verdun — Paris Claims Successful Advance Guard Action Thirty Miles Southeast of Paris — Kaiser and General Staff Directing Attack on Forts at Nancy.

London, Sept. 7.—Sir John French of the English army has pushed around to the left of the German advance after General Joffre's success in turning the German right, according to reports from Boulogne.

Paris, Sept. 7.—Germany's right wing army was engaged by the French and British, an official statement announces. This German force has been pressing the allied lines for two weeks in an unsuccessful attempt to flank them. The war office statement says: "The advance lines of the allies for the defense of Paris came into contact with the right wing of the Germans, who appeared in a covering movement in strong force on our right, advancing toward the southeast. A short engagement resulted to the advantage of the allies." The army of 1,000,000 assembled under General Joffre for the defense of Paris has taken a position at an

British Loss 15,000.

Sir John French, commander in chief of the British forces, in his report says that the first operations in the present war are mere incidents of strategy. He admits, however, a loss of 15,000 men. He confesses to be unable to understand the Germans' turning movement around Paris, but says that it may be an effort to reach the forts to the southeast instead of to the northeast of the city.

The French, according to a Berlin report, have retreated from Verdun and are between that city and Paris.

Germans are attacking the forts at Nancy, capital of Meurthe et Moselle, and Emperor William and the German general staff are present there, according to a bulletin from Berlin by way of Amsterdam.

While divisions of the two opposing armies may have participated in the engagements west of Paris, the main lines still are concerned with the German turning movement to the southeast. The German forces form a great semicircle from the northeastern frontier, swinging past Paris east and slightly south from the capital.

Dispatches from Bucharest report the triumphant advance of the Russians on Czernowitz, which they have occupied. It is stated that the inhabitants of Bukovina, near Czernowitz, joined with the Russians. This is regarded as the first sign of the dissolution of the Austria-Hungary empire through defection of Slav population.

A bombardment of the fortifications in the Bay of Cattaro, Austria-Hungary, was begun by a large fleet of French and British warships.

advantageous point. It is assumed the engagement announced by the war office opens a great battle that may decide the struggle in France.

The German forces are proceeding, divided into four armies, in a turning movement toward the south rather than pushing forward to Paris. The first army has reached La Ferte and Montmiral, the second has reached Chantilly and continued south, the third has occupied Rheims and the fourth has also moved southward.

Germany is believed to be pursuing the march to the south in France in the fear that she soon will be forced into a defensive position. The general southern movement might easily be a maneuver to extricate the army about Paris from threatened attack from the northwest. The German army is so badly beset by the transfer of five army corps sent to East Prus-

# STRIKE MINES AND GO DOWN

## Vessels Meet With Disaster In the North Sea.

## SEA CLOSED TO NAVIGATION

Action of British Admiralty Ascribed Partially to Capture of Fifteen Fishing Boats by German Warships and to Continued Laying of Mines. British Squadron Preparing to Attack Kaiser's Fleet.

London, Sept. 7.—The Wilson line steamship Uno has sunk after striking a mine in the North sea on her voyage to Archangel. The steamship left Hull Saturday. She carried 600 passengers, most of whom are believed to have been saved.

The foreign office issued the following: "Following neutral merchant vessels are known by the admiralty to have been destroyed by German

mines, in most cases with loss of life among the crews: Five Danish, two Dutch, one Norwegian and one Swedish."

The admiralty has ordered the North sea closed to all navigation. The notice adds: "All aids to navigation on the east coasts of England and Scotland may be removed at any time without further warning than is contained in this notice."

The action of the admiralty is ascribed partially to the capture of fifteen fishing boats by German warships and to the continued laying of mines in the North sea by the Germans. But it also is believed here that the British fleet is preparing to attack the German fleet, the capture of the fishing boats and further mine laying indicating that some of the German ships have left their station under the protection of the forts at the eastern end of the North sea.

Dispatches from Copenhagen, apparently referring to the same captures of fishing boats already reported by the admiralty, says that a Norwegian seaman who had been a member of a crew of a British trawler has arrived at Copenhagen from Hamburg and reported that two British trawlers were sunk and eleven captured and towed to Hamburg Aug. 28.

torpedo nets are set in front of the docks every evening. Elsewhere around the coasts the nervousness occasioned by the German mines is said to be indescribable.

"The enrollment of recruits for the British army is proceeding slowly. From one town of 700,000 inhabitants not more than 100 men reported themselves, the majority of them being tramps. The nation has not been permitted to learn the real situation at the seat of war."

## ALLIES IN GOOD SHAPE

Washington, Sept. 7.—The British embassy made public a review by the London foreign office of the first month of the war, in which it was asserted the allies have unchallenged command of the seas, their fighting strength in France is unimpaired, Russian armies are about to enter central Germany, and successes have come to the allies in the colonies.

The report says: "The loss to the British navy was one light cruiser only. As a consequence of this naval supremacy over 300,000 troops have been able to cross the sea in different parts of the world without the loss of a man."

## Uprising Against Christians Feared By Allies.

Washington, Sept. 7.—German and Austrian consular officers have been ordered by British authorities to leave Egypt at once.

Roumania has announced officially that if she abandons her position of neutrality, it will be to follow the course taken by Italy.

Great Britain has informed the United States that she would look with favor on the sending of American warships to Turkish ports to care for Christians in case there was a Mohammedan uprising against them.

These developments in the highly critical situation brought about by the feeling of the triple entente that Turkey is certain to join the conflict on the side of Germany and Austria were conveyed in official dispatches to the United States government.

England, France and Russia have reiterated that they wished to do nothing which might aggravate Turkey to abandon her position of neutrality. All three nations, therefore, now are looking to the United States to protect their subjects in case the expected Mohammedan uprising develops.

France has openly charged in her communications with the American government that German propaganda is busily stirring inciting Mohammedan uprisings, not only in Egypt but in India and Turkey.

While the cruiser North Carolina has been sent on a mission of relief, it is generally understood she will rendezvous in eastern Mediterranean waters for salutary effect of her presence. There is even talk of sending the Tennessee with her so as to be ready for any emergency in Egypt.

WILSON TO STAY  
OUT OF CONFLICT

Will Not Take Active Part In  
Coming Campaign.

INFORMS CHAIRMAN DOREMUS

His Letter Indicates to Democrats the  
Keynote in the Fall Campaign, the  
Administration's Record of Achieve-  
ment—Says Great Constructive Pro-  
gram Has Been Carried Through  
and Refers to Tasks Ahead of Him.

Washington, Sept. 7.—In a letter to  
Representative Frank E. Doremus,  
chairman of the Democratic congress-  
sional committee, President Wilson  
declines to take an active part in the  
coming campaign. The president in  
his letter indicates to the Democrats  
of the country the keynote in the fall  
campaign—the Democratic record of  
achievement, the clearing away of all  
doubt and uncertainty that have  
plagued business, and the clearing of  
the track for prosperity. President  
Wilson refers to the work of the extra  
session of congress, saying:

"A great constructive program has  
been carried through, for which the  
country has long waited, and has  
been carried through with the ap-  
proval and support of judicious men  
of all parties.  
"The great questions immediately  
ahead of us are the building up of our

merchant marine with all that means  
in the development and in the in-  
terification of our foreign commerce,  
and the systematic conservation and  
economic use of our national re-  
sources, subjects much talked about,  
but little acted upon.

"In view of the unlooked for inter-  
national situation our duty has taken  
in an unexpected aspect. Every na-  
tional man ought now to 'stay on his  
job' until the crisis is past and ought  
to stay where his job can best be  
done. My job, I now know, can be  
done best only if I devote my whole  
thought and attention to it and think  
of nothing but the duties of the hour.  
I have, therefore, reached the conclu-  
sion that I can not in any ordinary  
sense take an active part in the ap-  
proaching campaign; that I must re-  
main here to attend to the serious  
work sure to fill the months immedi-  
ately before us.

"The record made speaks for itself.  
The country can not be deceived con-  
cerning it and will assess it justly.  
And certainly this is a time when  
America expects every man to do his  
duty without thought of profit or ad-  
vantage to himself. America is great-  
er than any party.

"A little wisdom, a little courage, a  
little self-forgetful devotion may un-  
der God turn that destiny this way  
or that. Great hearts, great natures,  
will respond. Even little men will re-  
joice to be stimulated and guided and  
set an heroic example. Parties will  
fare well enough without nursing if  
the men who make them up and the  
men who lead them forget themselves  
to serve a cause and set a great peo-  
ple forward on the path of liberty  
and peace."

Rome, Sept. 7.—A dispatch from  
Cettinje says Montenegrin troops un-  
der command of General Vukotitch,  
the war minister, have defeated the  
Austrians at Bnjant, in Herzegovina,  
capturing all their munitions of war  
and the commissariat. The Austrians  
are said to have left a large number

OHIO HAPPENINGS

Miners' Conference Falls.

St. Clairsville, O., Sept. 7.—The  
joint subscale committee of the op-  
erators and miners of the eastern Ohio  
field adjourned after failing to reach  
an agreement. The committee will  
report disagreement tomorrow at a  
meeting of the scale committee of the  
miners and operators. It was an-  
nounced. The strike in this district  
has been on over five months. Seven-  
teen thousand men are affected.

Lost Legs: Tries to Kill Self.

Lancaster, O., Sept. 7.—After Cis-  
erin Daneno, twenty-five, had fallen  
off a train here and both his legs  
were cut off, he drew a knife from his  
pocket and tried to stab himself in  
the heart. Bystanders prevented him  
from killing himself, but he died from  
his other injuries a few hours after  
his removal to a hospital.

Goes After Burglar.

Findlay, O., Sept. 7.—Sheriff Ken-  
nedy has secured a requisition from  
Governor Cox for the return to Find-  
lay of John J. Garland, the burglar  
who broke jail here several years ago  
after he had been sentenced to the  
Ohio penitentiary for three years. He  
is now confined in the Stillwater  
(Minn.) state prison.

Willis to Stay in Washington.

Columbus, Sept. 7.—Congressman  
Frank B. Willis, Republican candidate  
for governor, announces that he has  
canceled all his speaking engage-  
ments for some time ahead and will  
remain in Washington. He said that  
important measures now before con-  
gress require the attention of all mem-  
bers.

Lightning Fires Oil Tanks.

Zanesville, O., Sept. 7.—Lightning  
struck a tank of the Columbus Gas  
and Fuel company, seventeen miles  
west of Zanesville, and spread to six  
other tanks. The glare illuminated  
the country for thirty miles and 1,450  
barrels of oil burned.

Widow Killed by Auto.

Columbus, O., Sept. 7.—Mrs. Enva  
C. Kemp, sixty-eight, widow, was  
killed when struck by the automobile  
of B. E. Fiddle of Homer, O., while  
she was walking in the Westerville  
pike, near her home in Mifflinville,  
this county.

Swimmer Drowns.

Cuyahoga Falls, O., Sept. 7.—George  
Beason of Cleveland lost his life in  
Wygona lake, near here, while at-  
tempting to swim the lake on a  
wager. Beason had gone about 400  
yards when he sank without an out-  
cry.

Shot While Playing War.

Cambridge, O., Sept. 7.—Hayes  
Shaffer, twelve, son of W. S. Shaffer,  
was shot in the jaw and neck with a  
revolver by Harold Bean, eleven, and  
now lies at the point of death. The  
boys were playing war.

Accidentally Kills Comrade.

Brink Haven, O., Sept. 7.—Alph  
Greer, fifteen, accidentally shot and  
killed Harold Stout, fourteen. He  
thought he was using a blank car-  
tridge. Stout's death was instan-  
aneous.

Eagles to Build Home.

Dayton, O., Sept. 7.—The local aerle  
of the Fraternal Order of Eagles ap-  
proved plans for a new home, to be  
located on Main street, this city. The  
cost is estimated at \$75,000.

POPE IS  
CROWNED

Impressive Ceremonies at Vatican  
Mark the Event.

Rome, Sept. 7.—Fifty-eight card-  
inals, including the three American  
cardinals, gorgeously robed and mit-  
red, and numerous prelates, cham-  
berlains in full uniform and troops,  
surrounded the pontifical chair bear-  
ing Pope Benedict XV. as it was car-  
ried through the crowded corridors of  
the vatican. After the adoration of  
the sacrament in the Pauline chapel,  
the cortege proceeded to the Sistine  
chapel, where the pope, assisted by  
the cardinals, celebrated high mass.  
He then was solemnly crowned with  
the tiara amid the acclamations of  
the crowds, the sounding of trumpets  
and the ringing of bells. The card-  
inals paid their homage and kissed  
the pope's feet. A pontifical blessing  
ended the ceremony.

PRETTY SCHOOLMARM  
HELPS THE SHERIFF

Zanesville, O., Sept. 7.—Miss Edna  
Offenbacher, a country teacher visit-  
ing at the county jail, stood guard in  
an outer corridor with a gun in her  
hand while Sheriff John J. Frick bat-  
tled with Al Woods, ex-convict, who  
attempted to escape. Woods was  
finally subdued.

# LOCALS CRUSH LOGAN BUNCH

Home Run by Rannels in the First Inning Started Slaughter That Continued Throughout Nine Frames to the Overwhelming Result of 21 to 3—Matthews Plays Star Game in Center.

The big score board at Athletic park Sunday evening proclaimed in cold but eloquent numbers that a terrible slaughter had ensued but a short time previous on the battlefield before it. It told in its terse but comprehensive way that in the short space of one hour and forty-five minutes the invading enemy, coming from Logan, had been completely routed by Washington's Athletics.

The game was a sad affair from the start. Rannels in the opening inning laced out a home run, bringing in three scores besides his own and from that time on the score steadily accumulated, at the close of the frolic totaling 21. Logan in the meantime, by supreme effort, succeeded in squeezing in a scant three runs.

Reno pitched and the work of the veteran was steady and insoluble as usual. Matthews, a Jeffersonville man, formerly with the Macon, Ga., league team, played the center garden with Noon right and Nip Jones in left, and not in many a moon has Washington seen such a strong defense in the outfield. The work of Matthews, both in the field and at bat, was a feature of the game.

# DEATH'S HEAD HUSSARS DEAD

By Associated Press.

London, Sept. 7.—A Petrograd dispatch to the Daily Mail, dated Sunday, says that the Bourse Gazette reports that a squadron of Death's Head Hussars, of which the Crown Prince was commander during his stay at Danzig, was defeated and completely cut up near Roczyn, in Poland. Count Stolberg, the commander of the squadron and all the other officers were among the fallen. The sale of spirituous liquors has been prohibited for the duration of the war according to a Petrograd dispatch to the Reuters Telegraph Company.

# VESSEL LOST CREW SAVED

By Associated Press.

London, Sept. 7.—It is learned on reliable authority that the captain and fifty of the crew of the British cruiser, Pathfinder, which was sunk by a mine in the North Sea, have been saved.

The destruction of the Pathfinder occurred about 4 o'clock Saturday afternoon at a point 10 miles northeast of Saint Abbs Head, Scotland. While she was patrolling the coast the cruiser struck a mine which exploded near her magazine. Trawlers, ten miles distant felt the shock. From Eyemouth, 14 miles from the scene of the explosion, a huge cloud of smoke was visible on the horizon. A torpedo boat destroyer was the first to the rescue. She was followed by the St. Abbs motor life boat. The Pathfinder was literally blown to pieces and the sea was strewn with wreckage.

# OCEAN TURNED ON THE GERMANS

By Associated Press.

London, Sept. 7.—Telegraphing from Ostend a correspondent of the Reuter Telegram Company by the German casualties in the fighting around Termonde, 16 miles east of Ghent, of Friday and Saturday are estimated at 5,000 men. A number of German soldiers were drowned when the dykes around Termonde were cut and several German guns were lost in the flood.

The correspondent of the Chronicle at Ghent says that terrible havoc has been done at Termonde by the German bombardment.

# WILSON TIRED OF BIG STRIKE

By Associated Press.

Washington, Sept. 7.—President Wilson addressed letters to the miners and operators concerned in the Colorado coal strike, virtually demanding that the long strike be ended. He addressed letters to the heads of the mining companies and to officers of the United Mine Workers of America.

### Treeless Falkland Islands.

There are no trees in the Falkland Islands, consequently the country presents a bleak appearance. In the autumn the long grass, turning somewhat grayish, imparts a disagreeable and monotonous aspect to the hillside. On the return of spring the ranchers used to have a glorious time of it in literally setting the camp on fire. This was done by simply striking a match on the saddle pommel and casting it into the midst of the withered grass. No coaxing was needed, as the material was withered and dry as tinder. Presently the mountain side would be fringed with one long line of raging flames and curling smoke. Thus was the pasture renewed. Although no trees grow in these islands, there is ample evidence of the land having once been thickly wooded.—Chambers' Journal.

### Pleasant Old Customs.

Hospital patients of today are better off than their ancestors of "the good old times." Mr. Wheatley in his book on "London" quotes from a Scottish act of parliament of 1386 to the effect that "if any man brings to the market corrupt swine or salmon to be sold, they shall be taken by the bailie, and incontinent, without any question, shall be sent to the leper folks," and if there be no lepers then only "shall they be destroyed utterly." The same pleasant custom obtained in Oxford in the fifteenth century, where all putrid meat and fish was by statute sent to St. John's hospital.

## CLOTHESPIN MACHINES.

What Happens When a Log of Wood Starts Through Them.

Making clothespins is an industry that nets handsome returns to many American factories. At Martinsville, Ind., there is a factory which has a capacity of more than 200,000 clothespins a day.

A rough log started through the mill comes out as hundreds of the shapely little wooden pins familiar to the backyard. The logs are cut into blocks about sixteen inches long, which a headlong saw cuts into boards about five-eighths of an inch thick. A gang of saws cuts these boards into strips five-eighths of an inch square and each long enough to make four pins. These strips are placed on an automatic trimmer and cut to the required length. They are then conveyed to the automatic lathes, seven in number, each with a capacity of four dozen a minute. From the lathes the pins drop to the slotting machines and from these to the dryroom, where all moisture is removed. Next they go to the polishing cylinders, which are filled about half full of pins, chips and sawdust. The cylinders revolve slowly for four hours, after which the pins drop into chutes to be conveyed to the packing room. Each lathe has a capacity of 2,400 dozen pins a day.—St. Louis Post-Dispatch.

## ANIMAL SPIRITS.

Our Vital Functions as They Were Known in Galen's Time.

"Few persons even stop to consider when they speak of 'a man of spirit' that they are unwittingly employing the language of the days of Galen," says the Journal of the American Medical Association. "Yet this is evidently the survival of the old doctrine of spirits. We may believe that Galen had a conception of the nerve trunks as conductors of something—he called it spirits—to and from the brain and spinal cord.

"The natural spirits were that undefined property which gave to blood the capacity of nourishing the tissues of the body. The vital spirits were acquired in the heart, and when at last the blood with its vital spirits went to the brain and experienced a sort of refinement for the last time the animal spirits were separated from it and carried to the body by the nerve trunks."

Such was the idea of the vital functions in the second century. Today, after 1,800 years, we know that there are no "spirits" in our blood or nerves, but we still speak of being in "high spirits" or "low spirits," of being full of "animal spirits," of a "spirited answer" or a "spirited horse."

"Ah, you see he knows I don't smoke."—London Tatler

## OIL UPON THE WATERS.

Its Action in Calming the Billows of a Stormy Sea.

Literally as well as figuratively, to pour oil upon the troubled waters is to calm them to a degree. This has been known from time immemorial, although its scientific explanation is not any too familiar even at the present day. The secret of the phenomenon lies in the fact that oil is extremely viscous—that is to say, it is of aropy consistency, sticky and adhesive, and can be spread out into a very thin but comparatively strong sheet.

In lubricating a bearing, for instance, it forms a tenuous film between the metals and so protects them from the wear of direct contact with each other.

Oil is lighter than water and when poured upon it remains upon the surface. As the surface tension of water is stronger than that of oil, the oil is immediately drawn out over the water in a very thin body, forming a sort of blanket, which presents a considerable resistance to the motions of the element beneath. The water waves still roll almost as high as before, but they are unable to break into ripples, so that the stormy sea, when oil covered, presents a surface of huge undulations, but smooth ones.

Ships are able to ride such waves with comparative ease. It is the waves that break that present the real danger to the mariner.—Boston Herald.

## OUTER SPACE.

Showing How Far It Is From Being Empty of Matter.

"When we speak of outer space, the space between star and star, as being empty of matter, it is rather interesting to see exactly what we mean," says a writer. "We know from observations on the planets that light, in its passage across space to our earth, suffers hardly any absorption, and from this fact we can deduce conclusions respecting the density of such matter as exists in outer space.

"If the degree of rarefaction in outer space is, for example, in the neighborhood of the one hundred millionth part of an atmosphere, then the appearance of Jupiter, for instance, would be as if our atmosphere had twice its present opacity. So that such matter as exists must be in a much more rarefied state. But, after all, these terms are only comparative.

"Suppose our atmosphere were allowed to expand up to the limits of the visible universe as far as the Milky way. Then its rarefaction would be such that it would be quite impossible, by any optical means, to detect the presence of any matter. Nevertheless, there would be about 5,000 molecules per cubic centimeter throughout space."

It is not the strength but the duration of great sentiments that makes greatness.—Friedrich Nietzsche.

# OUR 1914 OHIO ALMANAC

is just off the press. It carries 100,000

facts about Ohio—facts about business, agriculture, education, politics, your City, County and State; facts about everything you want to know about Ohio.

It is a Handbook that will interest and instruct every man and woman in the Buckeye State.

It has been compiled for us by experts. It is concise, comprehensive, thoroughly reliable. We are proud of this Handbook of ours. Its 300 pages are jammed full of authentic information—authentic because it was compiled by those who know. The work was under the direct supervision of O. K. Shimansky, editor and writer.

Among those who assisted in the compilation were Prof. C. B. Galbreath, secretary Fourth Constitutional Convention and former State Librarian; E. Frank Brown, fiscal supervisor, State Board of Administration; Miss Lucy J. Price, editor and lecturer; Judge E. M. Dittley, tax expert and former chairman Tax Commission of Ohio; Karl K. Shimansky, newspaper writer.

And what a lot of good stuff this staff did get into the 300 pages of our 1914 Ohio Almanac. The 100,000 facts in the Handbook include these important subjects:

Agricultural statistics  
Altitudes  
Amendments to Constitution

## TEUTONS FIGHT WITH BACK TO PARIS

German Line of March Threatened by Allies and Great Losses Occur on Bloody Battle Line of One Hundred and Twenty Miles Between Verdun and Nanteuil, With No Attempt to Storm Paris Forts.

DECISIVE BATTLE RAGES AT VERDUN  
GERMANS REPULSED BY BELGIANS

Teutons Plan to Repeat Coup of 1870—Russians Storming Prussian City Fifty Miles West of Lemberg—Second Austrian Army Defeated—2,000,000 German Troops Cross Rhine Early in War And Fresh Troops Continue to Pour Westward.

London, Sept. 7.—The belief is growing that a great decisive battle is being fought at Verdun, the strong fortress of France on the Meuse near the French frontier. If the Fourth German army, marching southward, cuts off the retreat of the French eastern armies, which recently have been holding the Germans in check between Toul, a fortified town 14 miles west of Nancy, and Epinal, also strongly fortified and near the Alsace frontier, it might repeat the coup which in 1870 drove General Charles Dennis Sauter Bourdaki and his army of 150,000 men into Switzerland.

Hopeful critics are speculating on the possibility that the Germans swing around to the south may mean an effort on the part of the invaders to make sure of their retreat through the Meuse district, but more likely it is a scheme to strike such a paralyzing blow to the French army as to render the investment of Paris a safe operation.

The southerly movement of the Germans may effect a junction of the Crown Prince's army and the army of Bavaria, which has been held on the defensive in Lorraine. Thus the Germans would advance from the east and north in a vast enveloping movement, destined to crush the allies' right wing by sheer weight of numbers, just as their left was pushed back during the last fortnight.

These preliminary movements, if showing nothing else, at least prove that the Germans realize that the siege of Paris, even its occupation, is quite worthless from a strategic standpoint while the allies are free in the field.

Paris, Sept. 7.—A general action is today proceeding to the east of Paris from Nanteuil and Le Haudouin to Verdun, according to an official communication given out this afternoon.

The text of the official notice is as follows: "A general action has started on the line through Nanteuil, Haudouin, Neaux, Sezanne and Vitry Le Francois and extending to Verdun. Thanks to the vigorous action of our troops, strongly supported by the British, the Germans started retiring. The Germans had advanced Saturday and Sunday into the region between Coulommiers and La Ferte-Gaucher.

In the Austro-Russian theater of operations 12 divisions of the Austrian army in the vicinity of Lemberg, Galicia, has been completely destroyed.

Nanteuil-Le-Haubouin is 25 miles northeast of the city of Paris and 10 miles southeast of Senlis, the distance from Nanteuil to Verdun is, roughly, 120 miles.

Before the official announcement was made newspaper dispatches from both Berlin and London indicated that engagements of tremendous import were being fought in the districts described by the French war office. The Berlin correspondent, whose dispatch was dated last Friday, said that a great battle was being waged on the French center from Rethel to Verdun. A message from London early today expressed the common belief in England that a decisive battle being fought at Verdun.

IN THE FIGHTING WHICH IS GOING ON TODAY TO THE EAST AND NORTHEAST OF PARIS THE GERMAN FORCES HAVE THEIR BACKS TO THE CAPITAL. FROM TIME TO TIME THE GERMANS TURN AND ENGAGE THE FRENCH AT THEIR BACKS. GERMAN SHELLS FALL CONTINUALLY IN THE GERMAN REAR.

Observers consider that it is obvious that the Germans could not attack Paris while the French armies are intact and are continuing their wide turning movement under perilous circumstances. The Red Cross surgeons and ambulance corps in Paris had received instructions that when they heard firing

to go in the direction of the sound. Following the trail afforded by the smoke the physicians encountered a French patrol who said between 250 and 300 wounded Germans were in a ruined church close to the German line and attended by a single German surgeon and two nurses.

## ENORMOUS WAR PREPARATIONS

London, Sept. 7.—A dispatch to the Evening Star from Rotterdam says that during the first 19 days of the war more than 2600 trains, bearing 2,000,000 troops for the western theater of war, passed over the five bridges over the Rhine at Cologne. Notwithstanding this enormous army reinforcements are still being hurried to the front not only to take the place of the huge number killed and wounded but in order to carry out the eminently German plan that, so far as possible, fresh troops be hurled at men who already have borne the burden of the day. In addition to the tremendous siege guns of the Germans, ordinary field pieces have been hurried forward,

## ALLIES FORCE RETIREMENT

Paris, Sept. 7.—Judging from reports made public in Paris German troops, covering the flanks of the main Germany army, encountered advance detachments of the allies in the fighting east of the capital today at a point near La Serte-Gaucher and were obliged to retire.

## PRUSSIANS ASK TO BE TAKEN

Rome, via Paris, Sept. 7.—A Russian official report, received here, says that their troops are gradually surrounding Trzemsyl, a strong fortified town in Galicia, 51 miles west of Lemberg, and that it will soon either be completely surrounded or taken by storm. Unofficial news which has reached here states that the Austrians still continue their flight southeast of Lemberg and everywhere the pursuing Russians collect arms and stores abandoned by the enemy while whole detachments willingly ask to be made prisoners, saying that the rigor of their officers, together with the privations, make their life impossible.

## BELGIANS REPULSE THE GERMANS

London, September 7.—A dispatch to the Exchange Telegraph Company from Antwerp, dated Sunday, gives a Belgian official communication which says: "The repulse of the German attack against the southern part of Antwerp, at Chapelle Au Bois yesterday was successful, the Germans leaving thousands of bodies on the field and retiring in disorder to Vilvorde, 6 miles northeast of Brussels. They are demoralized by the complete check of the attempt against Antwerp and by the losses inflicted by our field artillery. The Belgian losses are not numerous.

## AUSTRIANS SUFFER ANOTHER REVERSE

Paris, September 7.—According to advices received here a second Austrian army, operating in front of Krasnosodow, in the Luben region, has suffered great losses and is now on the defensive. Some of the Austrians have been forced to retreat.

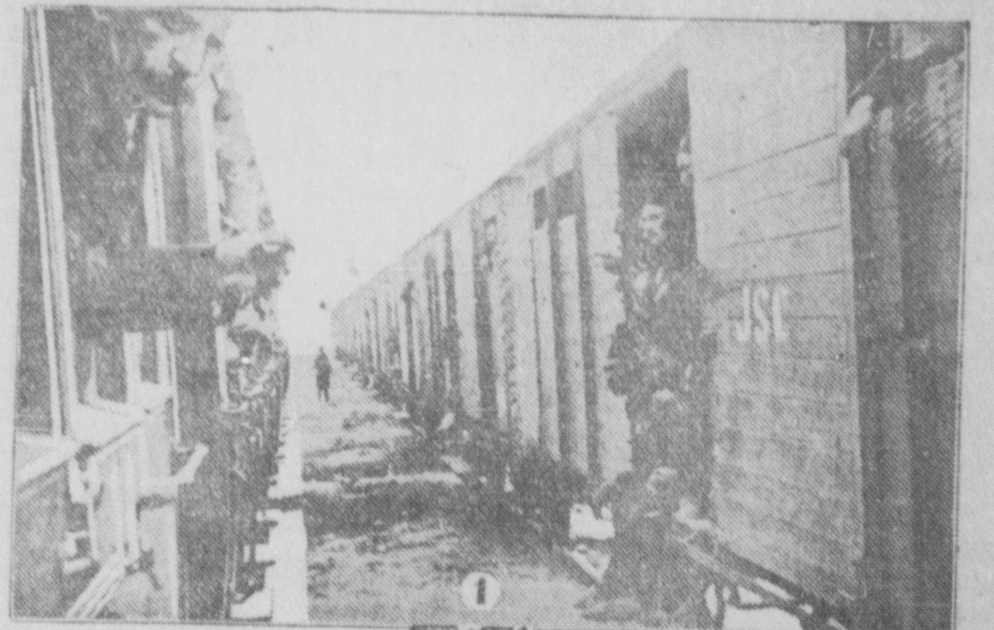

SAY GERMANS VIOLATE LAW  
MINIMIZE THE LEMBREG LOSS

By Associated Press.

Paris, Sept. 7.—An Ostend dispatch to the Havas Agency says: "A new violation of the Laws of War has been committed by the Germans. The military governor of Brussels has forced the civil guards, although unarmed, to help on the work of the fortifications of the city, especially trench digging.

By Associated Press.

The Hague, via London, Sept. 7.—The Austrian legation last night issued the following statement: "Reports from Russian sources that Lemberg, Galicia, has been taken by the Russians after a desperate fight for possession of the city are untrue. In reality Lemberg, which was not fortified, was abandoned to the Russian troops, without fighting, for tactical and humane reasons.

EXPLORER  
MAROONED

By Associated Press.

Winnipeg, Manitoba, Sept. 7.—Vilhjalmur Stefansson, the Canadian explorer, is marooned on the ice off Herschel Island, according to Rev. W. H. Fry, a missionary, who has been among the Esquimaux and who arrived here today from Kittigajvit. Stefansson is in no immediate danger.

## BULLETINS

By Associated Press.

San Francisco, Sept. 7.—The British freighter, Cetra, which arrived here early today reported that she had been halted in Mexican water by the German cruiser, Leipzig, her wireless outfit removed and her German cook transferred aboard the Leipzig. Her captain would not say when or where and was reticent about particulars.

Washington, Sept. 7.—A Berlin wireless to the German Embassy says "British cruiser, Warrior, stranded, probably as a result of fight with

cruiser, Goeben, while escaping from the Bosphorus." The dispatch contains nothing to amplify or explain.

Paris, Sept. 7.—After the news of the fall of Lemberg became known in Vienna, the correspondent of the Havas Agency says more than 20,000 men were set at work with feverish haste on the fortifications of Vienna and many thousands of others were strengthening the banks of the Danube.

RED CROSS  
SHIP SAILS  
TOMORROW

New York, Sept. 7.—In her new garb of white and red, and flying the American and Red Cross flags the Hamburg-American liner, Hamburg, renamed the Red Cross, was today made ready to start on her voyage for Falmouth.

The steamship presents a very gay aspect with its coat of white paint, red band and words "Red Cross" in large scarlet letters on either side. Two white flags with red crosses float aloft. An electric sign of a Red Cross will be flashed at night. All of this is for safety and not decoration.

DEATH CHEATED OUT  
OF LARGE HARVEST

By Associated Press.

Grimsby, England, Sept. 7.—Nearly 300 persons rescued from the Wilson liner, Runo, by trawlers, when the steamship sank in the North Sea, a victim of a contact with a mine at 4 o'clock Saturday afternoon, were landed at Grimsby and Hull on Sunday. The prompt work of the four trawlers, Silencion, Strethon, Cameo and Prince Victor, saved the lives of nearly all those on board. Wilson line officials say that all the crew and all but 27 of the passengers are safe in this port.

The Silencion picked up 128 survivors, practically all she could hold. The Cameo saved nearly a hundred and the other two, seventy.

The Runo was bound from Hull on the long trip across the North Sea to Archangel, and her passengers were mostly Russians from America who were returning to Russia with their women and children. The boat struck the mine in mid-afternoon Saturday, during fine weather. The explosion was terrific and a large portion of the ship was shattered while several passengers were injured and one was killed.

When the Prince Victor came up her crew went overboard in boats and some swimming. The chief engineer dived overboard and saved a woman and a child. One of the rescued women gave birth to a child a few minutes after being saved.

## Time For The Final Decree

The subject of taxation is an old, old one, and yet it is always new. A discussion of any phase of this always interesting question never fails to attract the attention of the people. Almost every citizen is interested to some extent in the matter of taxation and especially is it one of great importance to the landowners, the home owners and the men of moderate means. Upon them the heaviest proportion of the burdens of taxation has always rested.

Tax laws have been amended and repealed and new laws enacted all with a view to shifting some of the burdens to the shoulders of those who can better bear it.

In the enactment of Ohio's present code of taxation laws, the great public utilities companies operating in this state have been compelled to pay upon a property valuation which corresponds with its real value, the real estate of the commonwealth has been appraised at its true value in money and now under the latest law private personal property has been brought forward and listed for taxation at its true value.

Tremendous increases to the grand duplicate have been made and it is now up to the officials to adopt a rate for next year which will take into account that increase.

The returns so far made to the State Tax Commission justify the assertion that in ninety-five per cent of the taxing districts of the state a material reduction in the tax rate will be reported.

Fayette county through its budget commission must soon announce its position. Whether the officials are to place this county in the list of those where the farmer, the small home owner and the man of moderate means is to receive the reduction in rate to which he is entitled or whether it is to be placed with the very, very few in which relief is denied.

The reputation of the county and the fate of the taxpayers rests with the three men who compose the budget commission.

Their task is not an easy one because they are all tax spending officials and each is anxious to obtain every dollar possible to carry on the public work in which he is interested.

Mayor Coffey naturally would like to have more money for Washington because there are so many things that could be done to improve the city—more police, more firemen, more of this, that and the other. Dr. D. H. Rowe naturally wants the schools of Washington to flourish and would like very much to have more money than the schools received last year, and Auditor Henkle would like to see more money in the county fund. But these men must be broad enough to recognize the need of the public for a relief from the burdens of taxation proportionate to the increase of the duplicate. They must recognize, and undoubtedly do, that the primary object of the law resulting in the increased duplicate was not to raise more money to spend, but to provide a larger fund upon which to levy the amount necessary to be raised, thus lightening the load of those who have been bearing it so long.

If these men simply refuse to allow larger expenditures this year than were allowed last year, a material reduction in the rate must follow with its attendant relief to the home owners.

The taxpayers of Washington have been generous in the matter of our public schools and it is now time for the members of the city school board to show that they appreciate that generosity by at least holding the expenses down to a figure which will not be in excess of last year if they cannot reduce their expenses.

The same rule holds good all the way round. The budget commissioners should clamp the lid down hard on an increase of expenditures.

There is no need to raise more money than was raised last year. The budget commissioners must see to it that the taxpayers of the city and county get a "square deal" and that the tax spenders are held in check.

## Germany Has Been Peacemaker and England Trouble Maker of Europe

By Representative RICHARD BARTHOLDT of Missouri

THE impartial historian will bear out the assertion that GERMANY HAS BEEN THE PEACEMAKER AND ENGLAND THE TROUBLE MAKER OF EUROPE. For forty-three years Germany has kept the peace, while nearly every other country, including the United States, has waged war, even within the last twenty years—England with the Boers, the United States with Spain, Russia with Japan and Italy with Turkey. Many a time during the last seventeen years of the old emperor's regime and during the twenty-six years of the present kaiser the German people clamored for war, and especially was this true three years ago during the Moroccan crisis.

NO MATTER HOW THE GIGANTIC TROUBLE SHALL TERMINATE, THIS WAR WILL GO DOWN INTO HISTORY AS THE GREATEST PREDATORY EXPEDITION THE WORLD HAS EVER WITNESSED, AND ENGLAND AND FRANCE WILL NEVER BE ABLE TO WIPE FROM THEIR ESCUTCHEON THE STIGMA OF PARTICIPATION IN IT.

## Poetry For Today

### THE ENHANTRESS.

Beware the moon! Her soft and silvery splendor  
Is deep enchantment of a wondrous power,  
Which makes the hardened anchorite grow tender  
And causes sudden sentiment to flower;  
She makes the plainest, fair; the fairest, fairer,  
She makes the heart beat fast, the senses swoon,  
And wise men hold her rays in deadly terror.  
Beware the moon!

Beware the moon! She stirs the tongue to utter  
Words indiscreet and better left unsaid;  
She makes the breast to heave, the heart to flutter,  
She puts the wildest fancies in the head,  
She plays the dence with Tom and Dick and Harry,  
And, oh, the tender nothings that they croon!  
She tempts the crusty bachelor to marry.  
Beware the moon!

"Beware the moon!" So say the cynics scheming;  
And yet—perhaps the moon is wiser still,  
Perhaps the golden dreams she sets us dreaming  
Shall fill our souls with joy's ecstatic thrill,  
She drenches all the world in silvery glamour,  
Youth calls to youth, and warm hearts beat in tune.  
Come out, my love, though all the cynics clamor:  
"Beware the moon!"  
Berton Braley in Ainslee's.

## JAP PLANES DROP BOMBS

Tokyo, Sept. 7.—Official dispatches received here from the commander of the Japanese fleet off Tsingtao, the German base in the far east, say that two Japanese hydro-aeroplanes were launched from one of the warships and reconnoitered the German position. The aeroplanes dropped several bombs, one of them falling on the German wireless plant. The guns of the forts were directed against the aeroplanes and one of the machines had fifteen holes in its planes, the result of bits of shells and rifle fire, when it returned to the warship.

The Japanese fleet is dropping occasional shells into the fortifications guarding the entrance to Kiauchau bay, but will not begin any considerable bombardment until the land troops are ready to join in the attack.

## STAR OF FAMOUS TRIAL IS INSANE

New York, Sept. 7.—Roland B. Molineux, whose trial for the murder of Mrs. Katherine J. Adams and subsequent acquittal in 1902 formed one of the most famous cases the New York courts have had to deal with, was pronounced insane by two Brooklyn physicians. Molineux was arrested at Babylon, L. I.

## KARLSRUHE ATTACKS ENGLISH WARSHIP

New York, Sept. 7.—The German cruiser Karlsruhe has engaged and badly disabled the British cruiser Bristol off the coast of Haiti, according to H. H. Weissnes, lieutenant of the German army and leader of seventy-eight Germans who arrived here on the Clyde line steamship Algonquin from Puerto Colombia on their way to join the colors. The German lieutenant also said that a Dutch skipper had brought word to Puerto Colombia that the Karlsruhe had met and sunk the British cruiser Glasgow off the Colombian coast.

## RUSSIANS POUND AUSTRIAN LINES

St. Petersburg, Sept. 7.—An official statement says: "On Friday the Russian troops continued their energetic offensive against the whole Austrian line. The enemy's center suffered most, in the district west of Krasnozaw and southwest of Lublin. The Forty-fifth regiment of infantry was surrounded and surrendered to a man with the leader, forty-four officers and 1,600 soldiers. A German division which was marching to help the Austrians was attacked on the left bank of the Vistula."

## CHILD KILLS SELF WITH FATHER'S REVOLVER

Little Harold Snyder, Son of Mt. Sterling Undertaker, Plays With Pistol and Ball is Sent Crashing Through His Brain, Causing Death Almost Instantly.

Harold, 11-year-old son of Undertaker and Mrs. Ed Snyder, of Mt. Sterling, accidentally shot and killed himself at 10:30 o'clock Monday morning, while playing with a .32 caliber revolver belonging to his father.

The boy had been left alone at the house for a short time, and when the father's attention was attracted by a revolver shot, he rushed to his home and there found the child in an unconscious condition, and within a few minutes death took place.

When the father reached the house the lad was lying upon the floor while the smoking weapon was a few

feet distant. Some of the cartridges had been removed from the gun and placed upon the dresser. It was evident that the little fellow had been removing the loads, and had then peered into the barrel as he pulled the trigger.

The ball entered just below the left eye and passing through the brain, lodged in the back part of the child's head.

The tragedy caused the mother and father to suffer a complete breakdown, and they have the deep sympathy of hundreds of friends, including many in this city.

Besides the heart-broken father and mother, a 13-year-old sister is left by the lad. Harold was a bright little fellow, and had won the hearts of all who knew him.

Funeral services will probably be held Wednesday. Several local citizens will attend.

tion as a result of the mortar crumbling.

The contract calls for remortaring all crevices between the stones, the chiseling off of the weathered and damaged stones over the archways, and the application of a waterproof dressing wherever the stones have shown indications of decay.

The work has long been needed to place the court house in proper condition and insure the stone work from crumbling.

During the last few years the archways over the main entrances have crumbled badly, until they have become very unsightly.

## LEGGERS FINED PART SUSPENDED

Joe Tapsico, accused of bootlegging Monday morning entered a plea of guilty to the charge and was fined \$200 and the costs, and \$125 of the amount was suspended upon his payment of the remainder. He promised to "be good" and will be kept under the eye of the police hereafter.

George Scott, another of the men who was arrested upon a bootlegging charge, was fined \$200 and the costs, and \$150 suspended pending good behavior. The man's son paid the remainder.

Tobias Peoples was also permitted to go hence with payment of \$75 and the costs, the remainder of a \$200 fine being suspended pending good behavior. He paid part of the \$75 and obtained guarantors for the remainder at \$5 per week.

A repetition of the offense will not find any leniency on the part of the Mayor, according to His Honor.

## MACHINE DAMAGED ON DEVALON ROAD

A touring car, while going at good speed on the Devalon road, Sunday, plunged into the ditch and through the fence, badly damaging the machine, but not seriously injuring the occupants of the machine.

The auto, in passing through the fence, struck a post and snapped the post off at the top of the ground.

After making temporary repairs for the machine continued on its way into this city.

## CLARK HACK LINE CHANGES OWNERS

George Melvin Buys Business From Walter Clark and Latter Will Open Hotel in an Adjoining City—Business Established 40 Years Ago and Originally Operated Between This City and Greenfield.

Walter Clark, who for many years has run a cab line in this city, has disposed of the line to George Melvin, who assumed charge of the business Monday, and will continue to operate the business, adding additional equipment within a short time.

Mr. Clark announces that within a short time he will move elsewhere and open a hotel on the European plan. His destination has not yet been announced, as he has two or three propositions under consideration.

For 40 years the Clark hack line has been one of the city's well known institutions, being founded 40 years ago by Mr. Clark's father, Mr. James N. Clark, who operated a hack line between this city and Greenfield before the construction of the D. T. & L. railroad.

He later operated the line between the various depots and the local hotels, being assisted several years before his death, by his son, who for nine years has conducted the business himself.

The line, which is composed of six hacks, one bus and two baggage wagons, with several horses, has for a long time been known as the Cherry Hotel hack and bus line.

The business has been liberally patronized by the public, and the obliging proprietor has always been "on the job" and has found the business a profitable one.

## UNKNOWN VANDAL SHOOTS AND KILLS FARMER'S COW

John Swaney, Jefferson Township Farmer, Loses Cow When Some Unknown Person Deliberately Shoots It Down Under Cover of Darkness—Cowardly Attempt to Burn Home Vividly Recalled.

The Shady Grove neighborhood, in the extreme northwestern portion of Jefferson township, is again considerably aroused over the work of some unknown party who, sometime Saturday night, deliberately shot and killed a good cow belonging to John Swaney, of near that place.

The shot was fired from the roadway and the ball is said to have been from a revolver of heavy caliber. A neighbor heard the shot fired, made an investigation, and when the quivering body of the cow was found, immediately notified Mr. Swaney of the cowardly work of the unknown man.

An investigation is on foot, and it is believed that an arrest will follow in the near future, and that a genuine sensation may be unearthed in

the Shady Grove community.

It will be recalled that on Christmas eve, last, while Mr. Swaney and family were absent, an attempt was made to burn their home, but Mr. Swaney returned in time to save the dwelling after considerable damage had taken place.

When he extinguished the blaze he found a kerosene can which had been hurled into the room and used to kindle the fire.

The subsequent arrest of Lee Huffman, a young man of near Blessings Crossing, occurred, and last May the young man was indicted upon a charge of arson. His trial comes up at the approaching term of court. It was brought out at the time of Huffman's arrest that the young man and Swaney had had some trouble.

As Mr. Swaney is a poor man and can ill afford the loss of the cow, neighbors plan to assist him in tracking down the fellow. The local authorities, including Sheriff Nelson, will probably take a hand in the matter.

## CALL MEETING TO ORGANIZE

Mass Meeting of All Interested in Prohibition to be held at Court House Saturday Afternoon for Perfecting Organization to Fight for Dry Measures This Fall.

The Fayette County Ministerial Association held a meeting Monday morning at which nearly all of the ministers of the county were in attendance; also Walter Patton, secretary of Y. M. C. A., Dr. W. D. Cherington, Dist. Supt. M. E. church, and P. C. Gilbert of Columbus, representing the Anti-Saloon league.

The matter of the state prohibition amendment was taken up and discussed, with special reference to county organization for the purpose of conducting a pre-election campaign in behalf of the amendment.

A temporary committee was appointed and arrangements made to call a meeting of interested people of the county to form a permanent organization of the county.

This meeting will be called for Saturday, September 12 at the court house, 1:30 p. m. All persons of the county who are in sympathy with the prohibition amendment are requested to attend.

## DEATH CLAIMS MRS. H. V. CONN

After several years of invalidism and suffering, Mrs. Hannah Vance

Conn, widow of Jacob Conn, passed quietly into the great beyond Saturday night at 11 o'clock, at her home on E. Paint street.

Mrs. Conn had reached the advanced age of eighty-one years and was one of Washington's oldest residents, held in the highest esteem by a large circle of friends.

Several years ago she sustained a broken hip in a fall and has since been bedfast, proving her strong Christian character by the wonderful patience and cheerfulness with which she bore great suffering.

She leaves six children, Lydia, Arthur, of Uniontown, Pa.; Amy, Hamor of Cleveland; Clara and Charles, of Buffalo, N. Y., who have reciprocated their mother's affection by the most devoted care during her long illness.

Only last week, all the children were with her and all but Charles, who was called back to Buffalo remained until the eternal summons came.

The funeral services will be held at the residence Tuesday afternoon at 2:30.

## SCHOOL OPENS GOOD ATTENDANCE

The usual bustle and activity upon the part of parents, pupils and teachers, marking the opening day of school, was everywhere in evidence, Monday morning, as the great army of pupils was prepared for, and hurried off to school.

The morning was taken up in making assignments and preparing the "machinery" so that it would run smoothly after the first day. School adjourned at the noon hour.

## REPORT FILED WITH THE COMMISSIONERS

## FORESIGHT vs. HINDSIGHT

There's a story in the little old story books for children about the brother squirrels which is always impressive.

It runs that one of the squirrels played all through the summer and fall and neglected to store up his winter supplies or gather the snug, warm lining for his nest.

The other played betimes, but also worked, and when the chill wintry blasts came and in their wake the hail and sleet and snow, he was prepared.

The playful, happy-go-lucky squirrel became a tramp and beggar, and during the long hard winter, while he suffered the pangs of cold and of hunger, he looked back on the days when he had played while he should have worked.

The squirrel with fore-sight snuggled into his warm nest with his store of sweet nuts, gathered because of thought of bad weather that was to come, and was happy and care-free. The other suffered and he learned his lesson.

### IMMENSE CROWD ATTEND SURPRISE PARTY

One of the biggest events of the kind successfully carried out in this vicinity was the surprise party given Mrs. James Bridwell in honor of her birthday, at the Bridwell home on the Waterloo pike, Saturday evening.

Between one and two hundred relatives and friends from all over the county assembled in honor of the occasion and all brought picnic hampers fairly bursting with good things to eat.

Mrs. Bridwell had been detained in town until a late hour and similarly

## LOCAL YOUTH IN SERIOUS TROUBLE IN FORT WAYNE

The police are in receipt of a letter from Chief of Police Chas. Lentz, of Fort Wayne, Ind., enclosing a photograph of one "Chas. Jones", who is held under \$1,000 bond in that city on a charge of highway robbery.

The Ft. Wayne authorities make inquiry as to who the young man is and what he is. The local police had no difficulty in identifying the photograph as that of Roy Church, a young man who has been in trouble a number of times in this city.

According to the letter, young Church is being held under the name of Charles Jones, on \$1,000 bond, and must face the grand jury of Ft. Wayne on a charge of highway robbery for snatching a purse September 2nd. The young man was in company with a couple of other young

men at the time and it is claimed that one of the parties is probably from this city.

Church, who, if convicted, will probably serve a penitentiary term, has done time in the Boys' Industrial school at Lancaster, recently completed a term in the Xenia workhouse for bootlegging, and a few months ago served a jail sentence for assisting Orville Stockey in the theft of a robe.

The young man's parents reside in this city, and the lad had long been a wayward one, but has invariably managed to keep out of trouble. The police believe that the purse-snatching, which occurred in this city during the present year, might have been the work of the young man who is now in trouble in Indiana for similar work.

## BERLIN HAS ALLIES IN RETREAT

Germans Reported in Pursuit of the Fleeing Enemy Between Paris and Verdun — Paris Claims Successful Advance Guard Action Thirty Miles Southeast of Paris — Kaiser and General Staff Directing Attack on Forts at Nancy.

London, Sept. 7.—Sir John French of the English army has pushed around to the left of the German advance after General Joffre's success in turning the German right, according to reports from Boulogne.

Paris, Sept. 7.—Germany's right wing army was engaged by the French and British, an official statement announces. This German force has been pressing the allied lines for two weeks in an unsuccessful attempt to flank them. The war office statement says: "The advance lines of the allies for the defense of Paris came into contact with the right wing of the Germans, who appeared in a covering movement in strong force on our right, advancing toward the southeast. A short engagement resulted to the advantage of the allies." The army of 1,000,000 assembled under General Joffre for the defense of Paris has taken a position at an

sia to head off the Russian that Paris may never be besieged.

British Loss 15,000.

Sir John French, commander in chief of the British forces, in his report says that the first operations in the present war are mere incidents of strategy. He admits, however, a loss of 15,000 men. He confesses to be unable to understand the Germans' turning movement around Paris, but says that it may be an effort to reach the forts to the southeast instead of to the northeast of the city.

The French, according to a Berlin report, have retreated from Verdun and are between that city and Paris. Germans are attacking the forts at Nancy, capital of Meurthe et Moselle, and Emperor William and the German general staff are present there, according to a bulletin from Berlin by way of Amsterdam.

While divisions of the two opposing armies may have participated in the engagements west of Paris, the main lines still are concerned with the German turning movement to the southeast. The German forces form a great semicircle from the northeastern frontier, swinging past Paris east and slightly south from the capital.

Dispatches from Bucharest report the triumphant advance of the Russians on Czernowitz, which they have occupied. It is stated that the inhabitants of Bukovina, near Czernowitz, joined with the Russians. This is regarded as the first sign of the dissolution of the Austria-Hungary empire through defection of Slav population.

A bombardment of the fortifications in the Bay of Cattaro, Austria-Hungary, was begun by a large fleet of French and British warships.

# STRIKE MINES AND GO DOWN

## Vessels Meet With Disaster In the North Sea.

## SEA CLOSED TO NAVIGATION

Action of British Admiralty Ascribed Partially to Capture of Fifteen Fishing Boats by German Warships and to Continued Laying of Mines. British Squadron Preparing to Attack Kaiser's Fleet.

London, Sept. 7.—The Wilson line steamship Uno has sunk after striking a mine in the North sea on her voyage to Archangel. The steamship left Hull Saturday. She carried 600 passengers, most of whom are believed to have been saved.

The foreign office issued the following: "Following neutral merchant vessels are known by the admiralty to have been destroyed by German

mines, in most cases with loss of life among the crews: Five Danish, two Dutch, one Norwegian and one Swedish."

The admiralty has ordered the North sea closed to all navigation. The notice adds: "All aids to navigation on the east coasts of England and Scotland may be removed at any time without further warning than is contained in this notice."

The action of the admiralty is ascribed partially to the capture of fifteen fishing boats by German warships and to the continued laying of mines in the North sea by the Germans. But it also is believed here that the British fleet is preparing to attack the German fleet, the capture of the fishing boats and further mine laying indicating that some of the German ships have left their station under the protection of the forts at the eastern end of the North sea.

Dispatches from Copenhagen, apparently referring to the same captures of fishing boats already reported by the admiralty, says that a Norwegian seaman who had been a member of a crew of a British trawler has arrived at Copenhagen from Hamburg and reported that two British trawlers were sunk and eleven captured and towed to Hamburg Aug. 28.

torpedo nets are set in front of the docks every evening. Elsewhere around the coasts the nervousness occasioned by the German mines is said to be indescribable.

"The enrollment of recruits for the British army is proceeding slowly. From one town of 700,000 inhabitants not more than 100 men reported themselves, the majority of them being tramps. The nation has not been permitted to learn the real situation at the seat of war."

## ALLIES IN GOOD SHAPE

Washington, Sept. 7.—The British embassy made public a review by the London foreign office of the first month of the war, in which it was asserted the allies have unchallenged command of the seas, their fighting strength in France is unimpaired, Russian armies are about to enter central Germany, and successes have come to the allies in the colonies.

The report says: "The loss to the British navy was one light cruiser only. As a consequence of this naval supremacy over 300,000 troops have been able to cross the sea in different parts of the world without the loss of a man."

## HOLD UP TRAIN RIGHT IN DETROIT

Detroit, Sept. 7.—Bandits held up and robbed a train in the city limits. They shot two passengers and got away with a bag of "swag."

# TURKEY CERTAIN TO JOIN

## Uprising Against Christians Feared By Allies.

Washington, Sept. 7.—German and Austrian consular officers have been ordered by British authorities to leave Egypt at once.

Roumania has announced officially that if she abandons her position of neutrality, it will be to follow the course taken by Italy.

Great Britain has informed the United States that she would look with favor on the sending of American warships to Turkish ports to care for Christians in case there was a Mohammedan uprising against them. These developments in the highly critical situation brought about by the feeling of the triple entente that Turkey is certain to join the conflict on the side of Germany and Austria were conveyed in official dispatches to the United States government.

England, France and Russia have reiterated that they wished to do nothing which might aggravate Turkey to abandon her position of neutrality. All three nations, therefore, now are looking to the United States to protect their subjects in case the expected Mohammedan uprising develops.

France has openly charged in her communications with the American government that German propaganda is busily at work inciting Mohammedan uprisings, not only in Egypt but in India and Turkey.

While the cruiser North Carolina has been sent on a mission of relief, it is generally understood she will rendezvous in eastern Mediterranean waters for salutary effect of her presence. There is even talk of sending the Tennessee with her so as to be ready for any emergency in Egypt.

## GERMANS SINK ENGLISH BOATS

London, Sept. 7.—The official information bureau announced that a German squadron had sunk fifteen British fishing boats in the North sea. They captured a quantity of fish and the fishermen were taken to Wilhelmshaven as prisoners of war."

## BRITISH CRUISER SUNK BY MINE

Rome, Sept. 7.—The British cruiser Pathfinder was sunk by a mine in the North sea. Of the officers the paymaster was killed and six general officers were reported as missing. # WILSON TO STAY OUT OF CONFLICT

## Will Not Take Active Part In Coming Campaign.

### INFORMS CHAIRMAN DOREMUS

His Letter Indicates to Democrats the Keynote in the Fall Campaign, the Administration's Record of Achievement—Says Great Constructive Program Has Been Carried Through and Refers to Tasks Ahead of Him.

Washington, Sept. 7.—In a letter to Representative Frank E. Doremus, chairman of the Democratic congressional committee, President Wilson declines to take an active part in the coming campaign. The president in his letter indicates to the Democrats of the country the keynote in the fall campaign—the Democratic record of achievement, the clearing away of all doubt and uncertainty that have plagued business, and the clearing of the track for prosperity. President Wilson refers to the work of the extra session of congress, saying:

"A great constructive program has been carried through, for which the country has long waited, and has been carried through with the approval and support of judicious men of all parties.

"The great questions immediately ahead of us are the building up of our

## OHIO HAPPENINGS

### Miners' Conference Falls.

St. Clairsville, O., Sept. 7.—The joint subscale committee of the operators and miners of the eastern Ohio field adjourned after failing to reach an agreement. The committee will report disagreement tomorrow at a meeting of the scale committee of the miners and operators. It was announced. The strike in this district has been on over five months. Seventeen thousand men are affected.

### Lost Legs: Tries to Kill Self.

Lancaster, O., Sept. 7.—After Cicerin Daneno, twenty-five, had fallen off a train here and both his legs were cut off, he drew a knife from his pocket and tried to stab himself in the heart. Bystanders prevented him from killing himself, but he died from his other injuries a few hours after his removal to a hospital.

### Goes After Burglar.

Findlay, O., Sept. 7.—Sheriff Kennedy has secured a requisition from Governor Cox for the return to Findlay of John J. Garland, the burglar who broke jail here several years ago after he had been sentenced to the Ohio penitentiary for three years. He is now confined in the Stillwater (Minn.) state prison.

### Willis to Stay in Washington.

Columbus, Sept. 7.—Congressman Frank B. Willis, Republican candidate for governor, announces that he has canceled all his speaking engagements for some time ahead and will remain in Washington. He said that important measures now before congress require the attention of all members.

### Lightning Fires Oil Tanks.

Zanesville, O., Sept. 7.—Lightning struck a tank of the Columbus Gas and Fuel company, seventeen miles west of Zanesville, and spread to six other tanks. The glare illuminated the country for thirty miles and 1,450 barrels of oil burned.

### Widow Killed by Auto.

Columbus, O., Sept. 7.—Mrs. Enva C. Kemp, sixty-eight, widow, was killed when struck by the automobile of B. E. Fiddle of Homer, O., while she was walking in the Westerville pike, near her home in Milfillville, this county.

### Swimmer Drowns.

Cuyahoga Falls, O., Sept. 7.—George Beason of Cleveland lost his life in Wyoga lake, near here, while attempting to swim the lake on a wader. Beason had gone about 400 yards when he sank without an outcry.

### Shot While Playing War.

Cambridge, O., Sept. 7.—Hayes Shaffer, twelve, son of W. S. Shaffer, was shot in the jaw and neck with a revolver by Harold Bean, eleven, and now lies at the point of death. The boys were playing war.

### Accidentally Kills Comrade.

Brink Haven, O., Sept. 7.—Alph Greer, fifteen, accidentally shot and killed Harold Stout, fourteen. He thought he was using a blank cartridge. Stout's death was instantaneous.

### Eagles to Build Home.

Dayton, O., Sept. 7.—The local aerle of the Fraternal Order of Eagles approved plans for a new home, to be located on Main street, this city. The cost is estimated at \$75,000.

### BUNION TORTURED FEET QUICKLY MADE WELL

# POPE IS CROWNED

## Impressive Ceremonies at Vatican Mark the Event.

Rome, Sept. 7.—Fifty-eight cardinals, including the three American cardinals, gorgeously robed and mitred, and numerous prelates, chamberlains in full uniform and troops, surrounded the pontifical chair bearing Pope Benedict XV. as it was carried through the crowded corridors of the vatican. After the adoration of the sacrament in the Pauline chapel, the cortege proceeded to the Sistine chapel, where the pope, assisted by the cardinals, celebrated high mass. He then was solemnly crowned with the tiara amid the acclamations of the crowds, the sounding of trumpets and the ringing of bells. The cardinals paid their homage and kissed the pope's feet. A pontifical blessing ended the ceremony.

# PRETTY SCHOOLMARM HELPS THE SHERIFF

Zanesville, O., Sept. 7.—Miss Edna Offenbacher, a country teacher visiting at the county jail, stood guard in an outer corridor with a gun in her hand while Sheriff John J. Frick battled with Al Woods, ex-convict, who attempted to escape. Woods was finally subdued.

## LOCALS CRUSH LOGAN BUNCH

Home Run by Runnels in the First Inning Started Slaughter That Continued Throughout Nine Frames to the Overwhelming Result of 21 to 3—Matthews Plays Star Game in Center.

The big score board at Athletic park Sunday evening proclaimed in cold but eloquent numbers that a terrible slaughter had ensued but a short time previous on the battlefield before it. It told in its terse but comprehensive way that in the short space of one hour and forty-five minutes the invading enemy, coming from Logan, had been completely routed by Washington's Athletics.

The game was a sad affair from the start. Runnels in the opening inning laced out a home run, bringing in three scores besides his own and from that time on the score steadily accumulated, at the close of the frolic totaling 21. Logan in the meantime, by supreme effort, succeeded in squeezing in a scant three runs.

Reno pitched and the work of the veteran was steady and insoluble as usual. Matthews, a Jeffersonville man, formerly with the Macon, Ga., league team, played the center garden with Noon right and Nip Jones in left, and not in many a moon has Washington seen such a strong de-

fense in the outfield. The work of Matthews, both in the field and at bat, was a feature of the game.

The teams will engage again this afternoon. The Logans will put in their star pitcher in an effort to avert a repetition of yesterday's massacre.

## DEATH'S HEAD HUSSARS DEAD

By Associated Press.

London, Sept. 7.—A Petrograd dispatch to the Daily Mail, dated Sunday, says that the Bourse Gazette reports that a squadron of Death's Head Hussars, of which the Crown Prince was commander during his stay at Danzig, was defeated and completely cut up near Roczyn, in Poland. Count Stolberg, the commander of the squadron and all the other officers were among the fallen. The sale of spirituous liquors has been prohibited for the duration of the war according to a Petrograd dispatch to the Reuters Telegraph Company.

## VESSEL LOST CREW SAVED

By Associated Press.

London, Sept. 7.—It is learned on reliable authority that the captain and fifty of the crew of the British cruiser, Pathfinder, which was sunk by a mine in the North Sea, have been saved.

The destruction of the Pathfinder occurred about 4 o'clock Saturday afternoon at a point 10 miles northeast of Saint Abbs Head, Scotland. While she was patrolling the coast the cruiser struck a mine which exploded near her magazine. Trawlers, ten miles distant felt the shock. From Eyemouth, 14 miles from the scene of the explosion, a huge cloud of smoke was visible on the horizon. A torpedo boat destroyer was the first to the rescue. She was followed by the St. Abbs motor life boat. The Pathfinder was literally blown to pieces and the sea was strewn with wreckage.

## OCEAN TURNED ON THE GERMANS

By Associated Press.

London, Sept. 7.—Telegraphing from Ostend a correspondent of the Renter Telegram Company by the German casualties in the fighting around Termonde, 16 miles east of Ghent, of Friday and Saturday are estimated at 5,000 men. A number of German soldiers were drowned when the dykes around Termonde were cut and several German guns were lost in the flood.

The correspondent of the Chronicle at Ghent says that terrible havoc has been done at Termonde by the German bombardment.

## WILSON TIRED OF BIG STRIKE

By Associated Press.

Washington, Sept. 7.—President Wilson addressed letters to the miners and operators concerned in the Colorado coal strike, virtually demanding that the long strike be ended. He addressed letters to the heads of the mining companies and to officers of the United Mine Workers of America.

#### Treeless Falkland Islands.

There are no trees in the Falkland Islands, consequently the country presents a bleak appearance. In the autumn the long grass, turning somewhat grayish, imparts a disagreeable and monotonous aspect to the hillside. On the return of spring the ranchers used to have a glorious time of it in literally setting the camp on fire. This was done by simply striking a match on the saddle pommel and casting it into the midst of the withered grass. No coaxing was needed, as the material was withered and dry as tinder. Presently the mountain side would be fringed with one long line of raging flames and curling smoke. Thus was the pasture renewed. Although no trees grow in these islands, there is ample evidence of the land having once been thickly wooded.—Chambers' Journal.

#### Pleasant Old Customs.

Hospital patients of today are better off than their ancestors of "the good old times." Mr. Wheatley in his book on "London" quotes from a Scottish act of parliament of 1386 to the effect that "if any man brings to the market corrupt swine or salmon to be sold, they shall be taken by the bailie, and incontinent without any question, shall be sent to the leper folks," and if there be no lepers then only "shall they be destroyed utterly." The same pleasant custom obtained in Oxford in the fifteenth century, where all putrid meat and fish was by statute sent to St. John's hospital.

### CLOTHESPIN MACHINES.

What Happens When a Log of Wood Starts Through Them.

Making clothespins is an industry that nets handsome returns to many American factories. At Martinsville, Ind., there is a factory which has a capacity of more than 200,000 clothespins a day.

A rough log started through the mill comes out as hundreds of the shapely little wooden pins familiar to the backyard. The logs are cut into blocks about sixteen inches long, which a heading saw cuts into boards about five-eighths of an inch thick. A gang of saws cuts these boards into strips five-eighths of an inch square and each long enough to make four pins. These strips are placed on an automatic trimmer and cut to the required length. They are then conveyed to the automatic lathes, seven in number, each with a capacity of four dozen a minute. From the lathes the pins drop to the slotting machines and from these to the dryroom, where all moisture is removed. Next they go to the polishing cylinders, which are filled about half full of pins, chips and sawdust. The cylinders revolve slowly for four hours, after which the pins drop into chutes to be conveyed to the packing room. Each lathe has a capacity of 2,400 dozen pins a day.—St. Louis Post-Dispatch.

### ANIMAL SPIRITS.

Our Vital Functions as They Were Known in Galen's Time.

"Few persons even stop to consider when they speak of 'a man of spirit' that they are unwittingly employing the language of the days of Galen," says the Journal of the American Medical Association. "Yet this is evidently the survival of the old doctrine of spirits. We may believe that Galen had a conception of the nerve trunks as conductors of something—he called it spirits—to and from the brain and spinal cord.

"The natural spirits were that undefined property which gave to blood the capacity of nourishing the tissues of the body. The vital spirits were acquired in the heart, and when at last the blood with its vital spirits went to the brain and experienced a sort of refinement for the last time the animal spirits were separated from it and carried to the body by the nerve trunks."

Such was the idea of the vital functions in the second century. Today, after 1,800 years, we know that there are no "spirits" in our blood or nerves, but we still speak of being in "high spirits" or "low spirits," of being full of "animal spirits," of a "spirited answer" or a "spirited horse."

#### Safe Offer.

"Your Scotch friend asked you to have a cigar, but I notice he didn't offer me one."

"Ah, you see he knows I don't smoke."—London Tatler.

### OIL UPON THE WATERS.

Its Action in Calming the Billows of a Stormy Sea.

Literally as well as figuratively, to pour oil upon the troubled waters is to calm them to a degree. This has been known from time immemorial, although its scientific explanation is not any too familiar even at the present day. The secret of the phenomenon lies in the fact that oil is extremely viscous—that is to say, it is of a rosy consistency, sticky and adhesive, and can be spread out into a very thin but comparatively strong sheet.

In lubricating a bearing, for instance, it forms a tenuous film between the metals and so protects them from the wear of direct contact with each other.

Oil is lighter than water and when poured upon it remains upon the surface. As the surface tension of water is stronger than that of oil, the oil is immediately drawn out over the water in a very thin body, forming a sort of blanket, which presents a considerable resistance to the motions of the element beneath. The water waves still roll almost as high as before, but they are unable to break into ripples, so that the stormy sea, when oil covered, presents a surface of huge undulations, but smooth ones.

Ships are able to ride such waves with comparative ease. It is the waves that break that present the real danger to the mariner.—Boston Herald.

### OUTER SPACE.

Showing How Far It Is From Being Empty of Matter.

"When we speak of outer space, the space between star and star, as being empty of matter, it is rather interesting to see exactly what we mean," says a writer. "We know from observations on the planets that light, in its passage across space to our earth, suffers hardly any absorption, and from this fact we can deduce conclusions respecting the density of such matter as exists in outer space.

"If the degree of rarefaction in outer space is, for example, in the neighborhood of the one hundred millionth part of an atmosphere, then the appearance of Jupiter, for instance, would be as if our atmosphere had twice its present opacity. So that such matter as exists must be in a much more rarefied state. But after all, these terms are only comparative.

"Suppose our atmosphere were allowed to expand up to the limits of the visible universe as far as the Milky way. Then its rarefaction would be such that it would be quite impossible, by any optical means, to detect the presence of any matter. Nevertheless, there would be about 5,000 molecules per cubic centimeter throughout space."

It is not the strength but the duration of great sentiments that makes great men.—Friedrich Nietzsche.

## OUR 1914 OHIO ALMANAC

is just off the press. It carries 100,000

facts about Ohio—facts about business, agriculture, education, politics, your City, County and State; facts about everything you want to know about Ohio.

It is a Handbook that will interest and instruct every man and woman in the Buckeye State.

It has been compiled for us by experts. It is concise, comprehensive, thoroughly reliable. We are proud of this Handbook of ours. Its 300 pages are jammed full of authentic information—authentic because it was compiled by those who know. The work was under the direct supervision of O. K. Shimansky, editor and writer.

Among those who assisted in the compilation were Prof. C. B. Galbreath, secretary Fourth Constitutional Convention and former State Librarian; E. Frank Brown, fiscal supervisor, State Board of Administration; Miss Lucy J. Price, editor and lecturer; Judge R. M. Dittey, tax expert and former chairman Tax Commission of Ohio; Karl K. Shimansky, newspaper writer.

And what a lot of good stuff this staff did get into the 300 pages of our 1914 Ohio Almanac. The 100,000 facts in the Handbook include these important subjects:

Agricultural statistics  
Altitudes  
Amendments to Constitution
